**SUBJECT: Production Capacity Certification, Rupture Disk Type: E*L111
NB Cap Cert No.: VLC-M59026**

Dear Mr. Balachandran:

We have reviewed the application for renewal of capacity certification for the subject valve type dated January 28, 2014. Since the flow path is unchanged and no functional testing of power operated valves is required, all requirements for recertification have been met.

Valvtechnologies, Incorporated is hereby granted capacity certification and authorization to apply the "NB" mark as manufacturer of the disk type listed in the following scope of certification. This authorization is valid for the above location and only while the organization holds a current ASME "V" Certification of Authorization and is fully implementing its quality system as accepted by the National Board.

SCOPE OF CERTIFICATION

DISK TYPE: E*L111

Organization Type: Manufacturer

Certified Rating Value: Slope = 32.4 PPH/PSIA

Size: 2-1/2" x 1.062" bore x 4"

Pressure Range: 15 through 5000 psig

Certificate Expiration Date: January 6, 2020

Sincerely,

Thomas P. Beirne, P.E.
