

**THE
NATIONAL
BOARD**

OF BOILER AND
PRESSURE VESSEL
INSPECTORS

October 9, 2015

Mr. Anthony Majka
Valvtechnologies, Incorporated
5904 Bingle Rd
Houston, TX 77092

Subject: Capacity Certification, Valve Type Z*-105***8* (NB Cap. Cert ID No.: VLC-M59105)**

Dear Mr. Majka,

We have reviewed the application for renewal of capacity certification for the subject valve type dated September 18, 2015 and revised drawings and additional data submitted based upon our design review. Since the flow path is unchanged and no functional testing of power operated valves is required, all requirements for recertification have been met. The type designation has been revised in our records to indicate only the figures applicable to describing the certification.

Valvtechnologies, Incorporated is hereby granted capacity certification and authorization to apply the "NB" mark to the valve type listed in the scope of certification. This authorization is valid for the above location and only while the organization holds a current ASME "V" Certificate of Authorization and is fully implementing its quality system as accepted by the National Board.

SCOPE OF CERTIFICATION

VALVE TYPE: Z*-105***8***

Organization Type: Manufacturer

Certified Rating Value: Slope = 38.1 PPH/PSIA

Size: 1-1/2" x 3" (1.34" and 1.5" inlet I.D.)

Pressure Range: 75 through 5000 psig

Certification Expiration Date: October 9, 2021

Yours truly,

Joseph F. Ball, P. E.

Director, Pressure Relief Department
