

Specialty Valve Solutions for the Mining Industry

Abrasocheck® & Abrasotech®

Specialty Valve Solutions

ABRASOCHECK®

High Pressure Positive Displacement Pump Slurry Check Valve.

ValvTechnologies' ABRASOCHECK® slurry check valve is an upgrade of a product that has been used successfully in service for more than 30 years at the Savage River Iron Concentrate Pumping Plant in Tasmania. ValvTechnologies has re-engineered and improved the design of this product to be in line with our own technology for materials, coatings and manufacturing improvements. The combination of the ValvTechnologies' ABRASOCHECK® slurry check valve and the ValvTechnologies ABRASOCHECK® slurry ball valve provides **zero-leakage isolation** for maintenance of positive displacement pumps.

- ASME Class 600 - 1500
- 4" - 24"
- Zero leakage isolation

ABRASOTECH®

Slurry Transport Solution. Erosion & Corrosion Resistant.

The ValvTechnologies ABRASOTECH® valve is the result of extensive experience in providing reliable valves for the transportation of slurries in cross country pipelines. With an installed base of over 7,000 slurry service valves worldwide, ValvTechnologies is the established leader in these applications. The ABRASOTECH® valve is offered in carbon and stainless steel materials. The valves' internals can be protected against erosion and corrosion with the use of HVOF RiTech™ cerammet coating and metallic or urethane liners.

- ASME Class 150 - 2500
- 1/2" - 36"
