

THE NATIONAL BOARD
OF BOILER AND PRESSURE VESSEL INSPECTORS

January 14, 2020

Keith Whittaker
ValvTechnologies, Incorporated
5904 Bingle Road
Houston, TX 77092

**SUBJECT: Renewal of Capacity Certification, Valve Type: Z*-217RFXA5*-V01
NB Cap Cert No.: VLC-M59082**

Dear Keith Whittaker:

We have reviewed the application for renewal of capacity certification of the subject valve type. Since the flow path is unchanged and functional testing is not required for power operated pressure relief valves, all requirements for recertification have been met. The drawings submitted will be retained for our records.

ValvTechnologies, Incorporated is hereby granted capacity certification and authorization to apply the “NB” mark and ASME Certification mark with “V” designator to the valve type listed in the scope of certification. This authorization is valid only for the above location and only while the organization is fully implementing its quality control system as accepted by the National Board.

SCOPE OF CERTIFICATION

Valve Type: Z*-217RFXA5*-V01

Organization Type: Manufacturer

Certified Rating Value/Sizes/Pressure Ranges: As listed in the NB-18

Certification Expiration Date: August 1, 2025

Sincerely,

Thomas P. Beirne, P.E.
Technical Manager, Pressure Relief Dept.
