

THE NATIONAL BOARD

OF BOILER AND PRESSURE VESSEL INSPECTORS

January 21, 2020

Roberto Guerra
ValvTechnologies, Incorporated
5904 Bingle Road
Houston, TX 77092

**SUBJECT: Renewal of Capacity Certification, Valve Type: E*L111
NB Cap Cert No.: VLC-M59026**

Dear Mr. Guerra:

We have reviewed the application for renewal of capacity certification of the subject valve type. Since the flow path is unchanged and functional testing is not required for power operated pressure relief valves, all requirements for recertification have been met. The drawings submitted will be retained for our records.

ValvTechnologies, Incorporated is hereby granted capacity certification and authorization to apply the “NB” mark and ASME Certification mark with “V” designator to the valve type listed in the scope of certification. This authorization is valid only for the above location and only while the organization is fully implementing its quality control system as accepted by the National Board.

SCOPE OF CERTIFICATION

Valve Type: E*L111

Organization Type: Manufacturer

Certified Rating Value/Sizes/Pressure Ranges: As listed in the NB-18

Certification Expiration Date: January 6, 2026

Sincerely,

Thomas P. Beirne, P.E.
Technical Manager, Pressure Relief Dept.
